

MARINE AND COASTAL FISHERIES

Editorial Board - 2009

Editor-in-Chief

Don Noakes
School of Advanced Technologies & Mathematics
Thompson Rivers University
British Columbia, Canada
dnoakes@tru.ca

Subject Editors

Louis Botsford
Wildlife, Fish, and Conservation Biology
University of California—Davis
Davis, California
Expertise: theoretical and applied population dynamics involving age, size, and spatial structure; fisheries, population viability analysis

Richard Brill
Virginia Institute of Marine Science
Gloucester Point, Virginia
http://www.vims.edu/fish/faculty/brill_rw.html
Expertise: the physiological ecology, sensory biology, and bioenergetics of fishes

Howard I. Browman
Institute of Marine Research
Storebø, Norway
http://www.fishlarvae.com/e/fishlarvae_scientists.asp?s=285282437953JFD&page=11.21
Expertise: behavioral and ecological aspects of the early life history of fishes and ichthyoplankton-zooplankton interactions; biology and ecology of ontogenetic sensitive periods; effects of solar ultraviolet radiation on aquatic organisms and ecosystems; ecosystem based management; aquaculture and its impacts on marine systems; marine protected areas; marine policy

Anthony Charles
Management Science / Environmental Studies
Saint Mary's University
Halifax, Nova Scotia, Canada
<http://husky1.smu.ca/~charles/>
Expertise: fishery economics, fishery management and policy, ecosystem approach to fisheries, marine protected areas, coastal management

Paul Dayton

University of California, San Diego

La Jolla, California

Expertise: benthic ecology, evolution and natural history, general ecology, marine and conservation policy

Syma Ebbin

Department of Agricultural and Resource Economics

Connecticut Sea Grant

University of Connecticut

Avery Point Campus, Groton, Connecticut

Expertise: human dimensions, fisheries policy, socioeconomics, institutions

Tim Essington

School of Aquatic and Fishery Sciences

University of Washington

Seattle, Washington

Expertise: marine fish ecology and biology, food web interactions, marine fisheries—
estuarine/coastal, spatial ecology, modeling

Michelle Heupel

School of Earth and Environmental Science

James Cook University

Queensland, Australia

Expertise: fish habitat use, movement and behavior patterns, acoustic telemetry, elasmobranch
life history and ecology, and nursery area studies

Anne B. Hollowed

Alaska Fisheries Science Center

Resource Ecology and Fisheries Management Division

Seattle, Washington

Expertise: fisheries oceanography, stock assessment, and fisheries management

Glen Jamieson

Fisheries and Oceans Canada

Pacific Biological Station

Nanaimo, British Columbia, Canada

Expertise: benthic ecology and conservation biology, focused on species at risk and ecosystem-
based management, including spatial planning and determination and evaluation of ecological
objectives and indicators

Suam Kim

Department of Marine Biology

Pukyong National University

Republic of Korea

Expertise: fisheries oceanography

Kristi Miller
Molecular Genetics
Pacific Biological Station
Nanaimo, British Columbia, Canada
Expertise: population genetics, genetic stock ID, selection and adaptation, functional genomics, transcription profiling, immunogenetics, and salmon migration physiology

Anthony Overton
Department of Biology
East Carolina University
Greenville, North Carolina
Expertise: estuaries, larval fish ecology, foraging trophic dynamics, fisheries management, and fish health

Ana Parma
Centro Nacional Patagónico
Puerto Madryn, Chubut, Argentina
Expertise: stock assessment, modeling, management strategy evaluation

Kenneth Rose
Department of Oceanography and Coastal Sciences
Coastal Fisheries Institute
Louisiana State University
Baton Rouge, Louisiana
Expertise: modeling of aquatic systems, ecology, fisheries, population biology, ecological indicators, habitat loss, pollution, restoration, modeling

Silvia Salas
Cinvestav del IPN
Merida Yucatan, Mexico
Expertise: fisheries economics, fleet dynamics, fisheries management and policy, fishing strategies, and decision analysis

Patrick J. Sullivan
Department of Natural Resources
Cornell University
Ithaca, New York
Expertise: quantitative ecology and management of fisheries resources, population dynamics, and spatial statistics

Carl Walters
Department of Zoology, Fisheries Centre
University of British Columbia
Vancouver, British Columbia, Canada
Expertise: fisheries ecology and management, modeling, quantitative ecology, stock assessment
