School presentations and teacher trainings provided in the Northstar Borough School District and throughout interior Alaska on fisheries biology. Kits and activities on the following topics are available to borrow: aquatic insects, water quality sampling, fish printing. Slide programs on Alaska salmon and Freshwater Fish of Alaska are available along with a watershed model.

Meg Burgett

The 4H Fisheries, Natural Resource & Youth Development program is an innovative, experiential education program that utilizes local knowledge to increase the understanding of fisheries and other natural resource issues in rural Alaska. This program builds upon the traditions of 4H and reaches across cultural boundaries by using local knowledge to increase the understanding of fisheries and natural resource issues in rural Alaska. Support for the program is provided by program staff, quarterly newsletters, web page, annual training and access to resources throughout the school year. To learn more about the program, visit our webpage at: <http://www.uaf.edu/ces/4h/fisheries/>

fnkmb1@uaf.edu

Sea Grant produces educational materials about Alaska's seas and coasts aimed at K-12 students, teachers, and the general public. Products include videos/DVDs, books, classroom curricula, brochures, posters, games, and a weekly radio show, "Arctic Science Journeys," which airs on Alaska Public Radio stations. A complete catalog of educational products is at www.uaf.edu/seagrant. We also participate in educational events across the state, such as the Alaska Oceans Festival and the Alaska Math and Science Conference.

darcy-yrdfa@alaska.com

Yukon River Educational Exchange; Facilitate and organize two 8-day trips during the summer fishing season taking Canadian fishermen to Alaska and Alaskan fishermen to Canada to discover, explore and understand regional and cultural differences in Yukon River salmon fisheries.

Yukon Fisheries News: Tri-Annual Newsletter

Obtain submissions, write articles and publish YRDFA's newsletter three times a year, which is distributed to fishermen, community members, agency personnel, etc.

Weekly In-season Teleconferences

Participate in and write summaries for teleconference calls occurring weekly during the summer fishing season bringing together upriver and downriver fishermen as well as management entities with fishermen on the river to help make in-season management decisions regarding Yukon River salmon.

YR Salmon Agreement Handbook

Collaborating with the Yukon River Panel, YR DFA is producing a handbook to describe the *Yukon River Salmon Agreement* in layman's terms; to be distributed to all with a vested interest in Canadian-origin Yukon River salmon.

YR Community Meetings

Attend community meetings along the Yukon River to keep fishermen updated and informed regarding the *Yukon River Salmon Agreement* and current issues related to salmon fisheries.

Jon Lyman

Aquatic Education Coordinator

AK Dept of Fish and Game

Phone 907-465-6186

Fax 907-465-2772

jon_lyman@fishgame.state.ak.us

As coordinator for the ADF&G, I write curricula, write on sport fishing, teach aquatic ecology and fishing, provide training to adults in mentoring programs, coordinate fly fishing clubs, organize rural outdoor skills programs and work with several NGOs on AE efforts at both the state and national level. I am the FFF National VP for Education, serve on the board of the 4-H national fishing program, work with the Future Fisherman's Foundation on the Hooked on Fishing Not on Drugs program as a national trainer and coordinator, and am on the stewardship education working group with the Recreational Boating and fishing foundation. I am also the co-Education VP for the Aquatic Education Resource Association, our professional organization associated with IAFWA.

Interpretive naturalist with Forest Service during summer; Project Wild and Project Learning Tree instructor; Commercial (set net), sport, and subsistence fisherman.

Shannon Uzzell

Rural Program Director
Farthest North Girl Scout Council
Phone 907-456-4782 or 800-478-4782
Fax 907-452-2320 fngsc6@alaska.com

We are highly motivated to work with girls, community leaders and elders to help preserve traditional values, especially related to land and water uses with girls in northern Alaskan communities. Our new traditional foods badge is a flexible curriculum for introducing the ideas and concepts of traditional food exploration, as well as a respectful link between Western and Native Alaskan values in Girl Scouting. We also promote the American Red Cross Basic Youth Outdoor Survival Training and other AMSEA curricula during our summer camp programs.
